

XpredictLABS

HYDREC EZ1000S

Compact, Modular,
Completely Automated Sewage
Water Reclaimer Plant

Fully Automatic

No Manpower, Completely Touchless

25KLD in 25SQFT

Extremely Compact All in One

80% Recycled & Reused

99% Reduction in COD, BOD & TSS

Plug & Play

Min Installation, Re-install Time

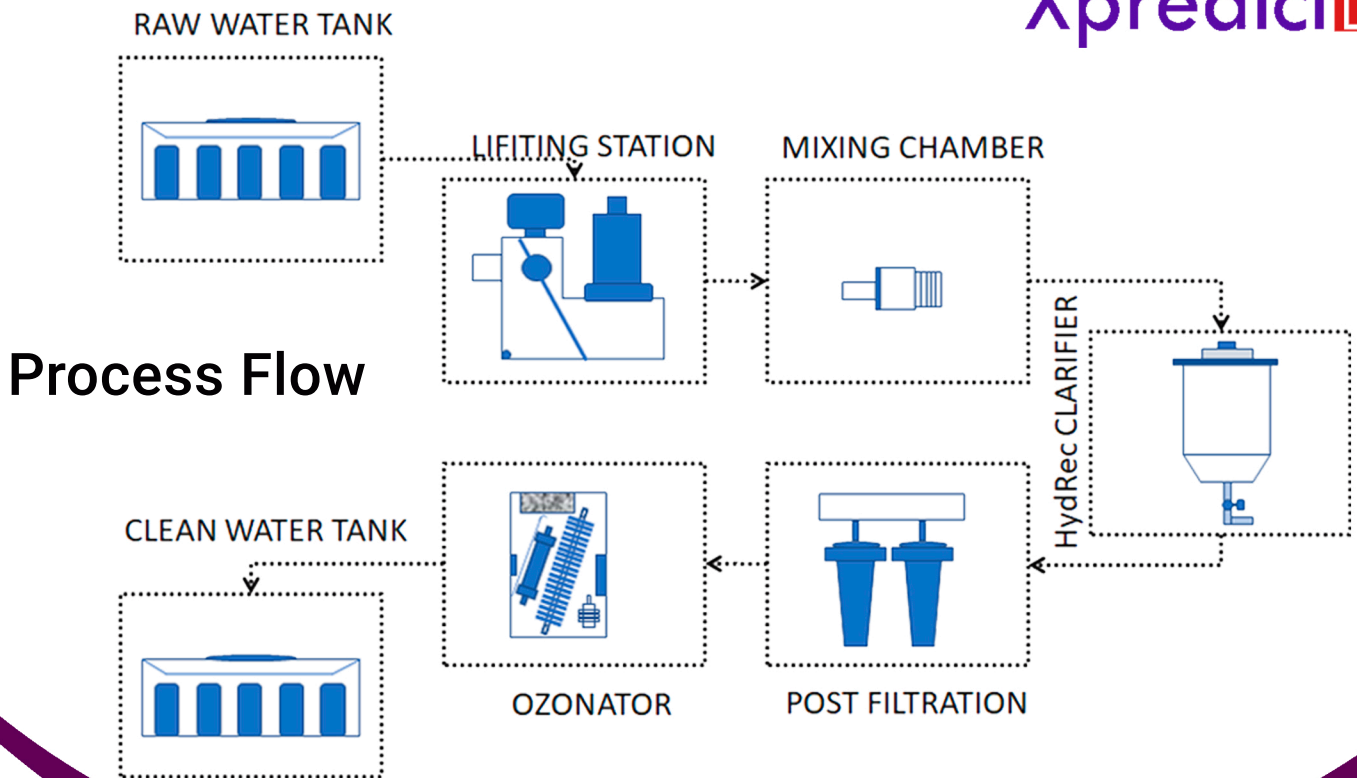

Ozone Disinfection

Color, Odour, Ecoli, N, P, K Removal

Power Saving

Single Phase 1.5KW

Economic Impact

80% Water Reclamation
 Less than 1 Paisa Per Litre
 781 Litres Through-put per sqft

Social Impact

Zero Odour
 Increased Land Availability
 Increased availability of Fresh Water

Environmental Impact

Conservation of Natural Resource
 0.05 Watt Energy Consumption per litre
 Sustainable & Environmental Friendly

Unique Points

50% Reduction Water Bill
 80% Reduction in Fresh Water Consumption
 Min Sludge Generation per Litre of Waste water
 25% Power Consumption Comparable to ETP Market
 Output Water Fully Complaint with PCB Norms
